KEYNOTE SPEAKER

Ed Hearn, CSP World Series Champion New York Mets

Kansas City Royals Author - Conquering Life's Curves Professional Speaker

In 1986, Ed Hearn fulfilled his childhood dream as a member of the World Series Champion New York Mets. The following year with the Kansas City Royals, he was set to make those big "million dollar bank deposits" today's professional athletes are accustomed to, when suddenly, a serious shoulder injury brought a premature end to a very promising and brilliant career.

Less than six months after his baseball career ended, he was diagnosed with three potentially life threatening health conditions. Once a strong, vibrant professional athlete, he was reduced to a man who could barely care for himself. Ed hung on, though, and used these physical challenges to make the most incredible comeback of his life.

Today, after 3 life-saving kidney transplants, months of dialysis, a successful bout with cancer, the aid of a breathing machine each night, a costly IV treatment once a month, and up to 50 pills per day, Ed has come back to live a life that is truly an inspiration.

While battling these very challenging health issues the past ten years, Ed Hearn has become one of this nation's most highly sought after motivational speakers. His courage, faith and determination speak volumes as we face life's challenges.

Recently, Ed was awarded the prestigious Certified Speaking Profession (CSP) designation from the National Speakers Association. He is the first and only, current or former professional athlete from our country's major league sports to receive this designation (only 7% of all speakers throughout the world have received this coveted distinguished honor).

As the author of Conquering Life's Curves - Baseball, Battles & Beyond, Ed has appeared on numerous national television programs including The Oprah Winfrey Show, The 700 Club and MSNBC. He is founder of The Bottom of the Ninth Foundation, a Kansas non-for-profit corporation dedicated to the mission of rebuilding the spirit and character of this nation.

Ed, his wife, Trish, and their eight-year-old son, Cody (a Tae Kwon Do Black Belt), reside in Lenexa, Kansas. He is very active in various community activities and spends countless hours of his time with the youth of Kansas City. In his spare time, Ed enjoys hunting, fishing, and golf.

SUPPORTERS

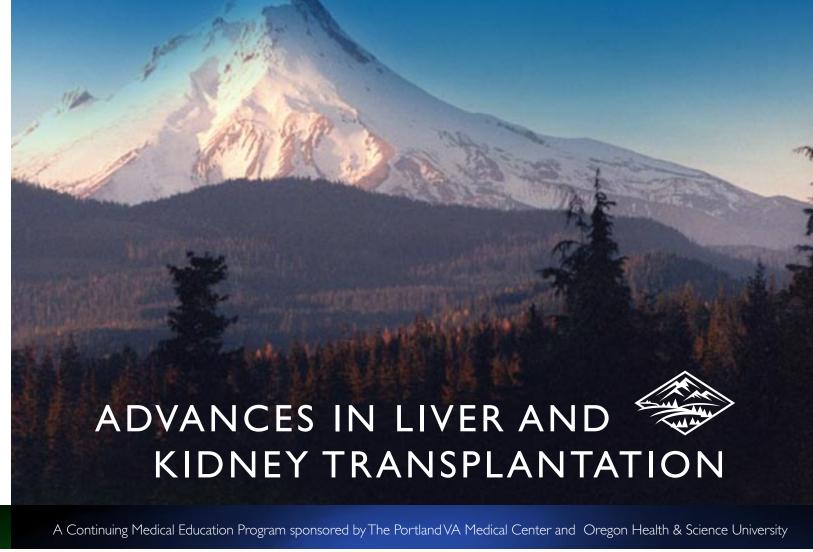

APRIL 21-23, 2005
The Embassy Suites Downtown

Portland, Oregon

PURPOSE OF CONFERENCE

This conference is desgined to provide a comprehensive overview of the liver and kidney transplantation process. The goal is to assist the physician, nurse or dialysis specialist to educate patients about transplantation, assess potential transplant candidates, facilitate transplant referrals, and provide post-transplant follow up for the liver/renal impaired and ESLD/ESRD population.

Conference Objectives

At the conclusion of this conference, participants will be able to:

- 1. Describe the history of liver and/or kidney transplantation.
- 2. Discuss the VA transplant referral process for patient evaluation.
- 3. Identify appropriate screening criteria for liver and/or kidney transplant recipient candidates.
- 4. Distinguish between relative and absolute contradictions to transplantation.
- 5. Describe the screening criteria and education provided to living donors.
- 6. Identify the function of HLA laboratories in solid organ transplantation.
- 7. Identify common infectious disease concerns in immunosuppressed transplant patients.
- 8. Evaluate current immunosuppression protocols and identify side effects of the medications.
- Recognize early rejection symptoms, infections or potential complications.
- 10. Identify interventions required to protect graft function.
- II. Recognize psychosocial and psychiatric issues and barriers to transplant.
- 12. Identify nutrition and exercise needs in the transplant patient.
- 13. Manage ESLD/ESRD in the transplant patient.
- 14. Recognize ethical issues and barriers in transplant research.

day if

This conference is intended for dialysis/nephrology clinic staff and others involved in the care of the renal or liver transplant patient.

Accreditation

Target Audience

Oregon Health & Science University School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to sponsor continuing medical education for physicians.

Credit

American Medical Association: OHSU School of Medicine, Division of CME, designates this educational activity for a maximum of 11.75 category 1 credits toward the AMA Physician's Recognition Award. Each physician should claim only those credits that he/she actually spent in the activity.

Nurse CEU Credit: Oregon Health & Science University Hospital, Patients Care Services Board Division is a provider approved by the California Board of Nursing, Provider number CEP6811. This program has been approved for a total of 15.75 contact hours (4.25 hours Thursday, 8.0 hours Friday, and 3.5 hours Saturday).

Lodging

The Embassy Suites Hotel is located in the heart of downtown Portland. Suite rates for April 20-23: \$114.00

single, \$124.00 double.
Reservations may be made by calling 800-EMBASSY (800 643-7892). Ask for the Liver and Kidney Conference. Reservations must be made by March 28th to

guarantee room rate and availability. Parking is available on site: \$22 overnight valet with in/out privileged, \$15 self-park overnight without in/out privileges. Day parking \$8 flat rate valet, \$4.25/hour self-park. Special self parking rate of \$7.50 day if in by 10:30 am.

VA Travel

All travel funds/arrangements must be obtained from local sources.

Deadline

Registration deadline is **April 14th**. No refunds for cancellation after April 14th.

For Further Information

Contact **Roberta Ruimy** at PVAMC 503 721-7860 or **Jennie Newton** at OHSU 503 494-2881.
